

▶ Enabling Cross Border Movement of Talent

As your business progresses on your journey to business traveller compliance, an end-to-end technology solution can help you understand and manage your risks. **myTrips enabled by SAP® Concur® solutions** supports you with an automated, end to end process from pre-travel assessment through to post-travel data driven reporting and completion of downstream compliance actions.

Our alliance with SAP Concur means our business travel technology can be automated and directly linked to your employees' requests and bookings through your SAP Concur platforms.

▶ Let's take this journey **together**

If action is required, we can support you to manage risk and compliance across Employment Tax, Posted Workers Directive, Immigration, Social Security, Corporate Tax and more

► Our team of specialists are ready to support you

We're one global company.

Tight-knit professionals work together to exceed your expectations.

We're fully independent.

No more restrictions on what we can do and who we can do it with.

We're nimble and strategic.

Alliances within the mobility industry can enable us to do more and serve you better.

We're all in on technology.

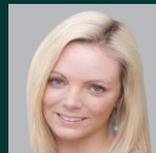

Significant and meaningful investments to customize and improve the tools needed to deliver excellent client service.

We're here to help you and your employees

Vialto's myTrips enabled by SAP Concur solutions allows your organization to:

- Quickly implement an automated pre-travel risk assessment solution
- Manage exposure to compliance risks and penalties
- Be audit ready in any territory
- Protect against reputational risks
- Drive operational efficiencies
- Design the future of work
- Inform talent and performance decisions
- Meet your ESG agenda
- Fulfil duty of care obligations to your employees

Your employees will benefit too:

- Booking or requesting a trip through Concur will automatically trigger a risk assessment
- They only need to provide their information once
- myTrips will tell them what documents they need before they travel
- They'll have access to Vialto's experts if they need them
