

myRemoteWork is a technology solution designed to operationalize and track employee remote work requests in a centralized way. Accessed via a web interface, it performs instant risk assessments against your remote work policy and 5 key risk areas.

Overview:

Simple self-service tool performing a pre-travel remote work assessment **instantly**

Automated approval process **across 5 key risk areas, covering over 100 countries**

Option for **off-the-shelf or fully tailored** communications to be generated to employees

Provides employees with **immediate on-screen confirmation** of whether their request is approved, in review, or declined

Detailed employee and employer dashboards providing **data driven reporting—enabling employers to know where their employees are remote working**, and report out on the data internally

Technical database covering over 100 countries*

*social security, immigration, income tax, EU PWD, and payroll

Designed to manage international remote work requests instantly

Open API functionality to integrate with your HR systems

Automation applies your remote work policy and guardrails to employee requests

Multi-level workflow approvals process managed within the tool

Optional Vialto helpdesk available to users to ensure optimal user experience

Used by organizations around the globe—**processing thousands of employee remote work requests each year**

Detailed analytics for corporate users, providing instant oversight and reporting on remote work population

Low cost per workflow assessment fee to manage your employee requests
