

# ▶ Enabling cross-border movement of talent

As your business progresses on your journey to business traveller compliance, technology solutions can help you understand and manage your risks. Vialto's **myTrips** provides support with an automated, end-to-end process from pre-travel assessment through to post-travel data-driven reporting and completion of downstream compliance actions.

Our technology provides compliance for immigration, social security, employment tax, corporate tax and Posted Workers Directives (and equivalent requirements), remuneration calculations, and EU transparency requirements.

Let's take this journey together

## We're here to help you and your employees

### Vialto's myTrips can allow your organization to:

- Quickly implement an automated pre-travel risk assessment solution
- Manage exposure to compliance risks and penalties
- Be audit-ready in any territory
- Protect against reputational risks
- Drive operational efficiencies
- Design the future of work
- Inform talent and performance decisions
- Meet your ESG and DEI agendas
- Fulfill duty of care obligations to your employees

### Your employees will benefit too:

- Booking or requesting a trip through your standard booking system will automatically trigger a risk assessment
- They only need to provide their information once
- myTrips will tell them what documents they need before they travel
- If needed, access to Vialto experts providing compliant and safe options for changing travel plans and removing time-consuming and costly red tape
